PROFESSIONAL SUMMARY

CS & AI Graduate (Damietta University, 2024) and Full Stack Developer with 2+ years of hands-on experience building production-ready web applications using the MERN stack. Delivered live projects spanning e-commerce, SaaS collaboration tools, and real-time dashboards. Proficient in Redux Toolkit, Context API, Next.js, JWT authentication, and RESTful API design. Strong focus on clean architecture, performance optimization, and reusable component design that ships fast and scales well.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, SASS/SCSS

Frameworks & Libraries: Next.js, React.js, Node.js, Express.js, Vite

State Management: Redux, Redux Toolkit, Context API

UI & Styling: Tailwind CSS, Material UI (MUI), Bootstrap 5

Databases: MongoDB, Mongoose ODM

Core Concepts: React Hooks, Component-Based Architecture, Responsive Design, REST API Design, JWT Authentication, MVC Pattern

Tools & Platforms: Git, GitHub, Netlify

APIs & Integration: RESTful APIs, Fetch API, Axios

Soft Skills: Problem Solving, Team Collaboration, Attention to Detail, Self-Learning, Time Management

EXPERIENCE

Freelance Full Stack Developer — Self-Employed, Remote *Jan 2025 – Present*

- Designed and shipped 4 full-stack web applications with live Netlify deployments
- Built and maintained RESTful APIs consumed by React frontends, handling products, orders, and auth
- Collaborated on AI Sprint, an open-source multi-user SaaS tool, using Git PR workflow and code reviews

Frontend Development Trainee — Digital Egypt Pioneers Initiative (DEPI)

2025 – 2026 | Government-backed intensive training program, Egypt

- Completed an intensive frontend track covering React, state management, responsive design, and modern tooling
- Applied Agile workflows, Git collaboration, and peer code reviews in team projects

PROJECTS

1. Laban Shop — Full Stack E-Commerce Platform (MERN + Redux Toolkit) [\[Live Demo\]](#) [\[GitHub\]](#)

- Built a production-ready MERN e-commerce platform supporting 50+ products with full CRUD operations
- Reduced global state complexity by 60% using Redux Toolkit slices for cart, auth, and product data
- Developed a RESTful backend API handling products, orders, users, and authentication
- Implemented JWT authentication with protected routes, securing all user sessions end-to-end
- Responsive admin dashboard with full product and order management

2. Forever — Full Stack Retail Platform (MERN + Context API)

[\[Live Demo\]](#) [\[GitHub\]](#)

- Built a sleek full-stack retail platform using React, Node.js, Express.js, and MongoDB
- Used React Context API for lightweight, efficient state management
- Focused on clean UI/UX with Tailwind CSS and robust backend integration
- Implemented dynamic cart, checkout, and order management flows

3. AI Sprint — Collaborative SaaS Project Management App (MERN) [\[GitHub\]](#)

- Team-driven project management tool built with the MERN stack
- Designed for real-time multi-user collaboration with secure role-based access
- Dynamic task boards with live updates and team productivity features

4. Weather Application [\[GitHub\]](#) [\[live Demo\]](#)

- Built a real-time weather dashboard delivering live data for any city worldwide via OpenWeatherMap API
- Implemented multi-language support, geolocation, and responsive design
- Deployed and hosted on Netlify

EDUCATION

Bachelor of Science — Computer Science and Artificial Intelligence | Graduated 2024 | 4-Year Program

Faculty of Computers & Artificial Intelligence — Damietta University | 2020 – 2024

COURSES & CERTIFICATIONS

- Advanced Frontend Training — AMIT Learning | 2025 – Present (In Progress)
- Frontend Development Track — Digital Egypt Pioneers Initiative (DEPI)

LANGUAGES

- Arabic — Native
- English — Intermediate (Working Proficiency)
